

3M™ Static Control Surface Mark Remover 8001

Static Control Surface Mark Remover 8001 for Static Control Mats is an extra-strength product for removing ordinary dirt and grime, as well as most difficult spots and stains, from static control surfaces: table mats, floor mats, hard laminate benchtops, portable field service kit work surfaces, etc.

This easy-to-use product is suitable for most washable static control surfaces and is designed to be used full-strength. Static Control Surface Mark Remover 8001 comes in a handy refillable 1-quart spray bottle. It is a clear, colorless, homogenous, water-based liquid that contains detergents, conditioners, and other cleaning additives, and has a fresh, clean scent.

Simply spray Static Control Surface Mark Remover 8001 and wipe it off with a clean cloth or sponge. For difficult spots or stains, agitation of the surface with a brush or sponge may be helpful.

Notice:

This product is not intended for consumer use.

Product Handling and Safety Precautions: Read all Health Hazard, Precautionary and First Aid statements found in the Material Safety Data Sheet and/or product label of chemicals prior to handling or use. MSDS available. Environmental, health, safety and regulatory information on this product is available from 3M.
